

Aston Martin DB9 Volante

This gorgeous supercar from Aston Martin offers an opulent cabin and strong performance wrapped in a package every bit as stunning as its Italian counterparts.

Under the bonnet is a V12 producing 450 horsepower and 412 pound-feet of torque, the silky-smooth engine is capable of pushing the DB9 coupe to 60 mph in 4.7 seconds, and to a top speed of 186 mph, and sounds incredible, yet is well mannered around town or cruising - in fact high-speed cruising is this car's forte.

This car has only had ONE owner from new and covered 47000 miles with an excellent service history with 22 stamps in the service book by Aston main dealer or specialists the last service was undertaken in June 2023 by Stratton at 46949 miles. The water pump has also just been replaced

The blue fabric electric roof is in good condition and working order and the boot for a coupe is quite generous

Service history:

- 3737 miles
- 8233 miles
