

Austin Healey BN1 - 100

Austin Healey - BN1 100

This gorgeous Austin Healey was first manufactured in 1954 and was destined for the sunny climate of California as evidenced with a British Motor Industry Heritage certificate

The car later returned home and was converted to right hand drive by a Healey specialist in Ireland. The last owner (a well-respected person with Healey circles) has owned the car for over 24 years and in that time the car has been meticulously cared for as is shown with a plethora of documentation from brakes to washers

The car includes a full tonneau, side screens, wire wheels

Items of particular note

- Full respray, to the original colour of Ice Blue, in 2013.
- Bushes and Arms in 2020

- Electronic ignition 2018
- Carb rebuild 2016
- Distributor, points, condenser
- Exhaust 2013
- New screen 2013
- Clutch 2013
- Master Cylinder 2013
- Cylinder head gasket 2013
- Wheel Cylinders x 4 2012
- Radiator 2012
- Carpets and other trim including door trims 2012
- Silencer and front pipe 2012
- Water pump 2012
- Rocker cover 2011
- Battery 2004
- Seat belt harnesses 2003

The car runs very well and the body and interior are in truly excellent condition- this is a must see example
