

Jaguar eType - 3.8 coupe

The highly desirable Series 1 3. 8 coupe.

This car has seen considerable expenditure over the years and certainly in 2025 and 2026.

The year of manufacture is 1964 but was first registered in the UK in 1969. Initially it was in New York with Jaguar. The last owner has cherished the vehicle and had a professional body-off respray to its current Sage Green which is colour often associated with Aston Martin.

There is a reasonable history file, including heritage certificate, handbooks and other literature .

2025 work included @96386 miles

- Screen washer pump
- Front and Rear Wheel bearings
- Starter motor

- Steering rack assembly and rack
