

Land Rover Defender 110

Unique Defender -110

A rather special defender that offers 9 seats and a canvass roof matching the colour of the bespoke seat covers

This car has only had 2 owners

The last owner originally acquired the in late 2020 as a standard 110 but in excellent condition, in 2021 the vehicle benefitted from a very significant recomission, upgrades and soft top conversion at a cost of £20, 000 by a highly reputable landrover specialist. (NENE OVERLAND)

Since then then car has done about 3500 miles a year with good servicing history; essentially has been used by a luxury hotel.

The car drives better than most Defenders' in our humble oppinion and is totally

solid with excellent paintwork.

This is by no means a run-of-the-mill Landrover

Puma Engine
