

MG Midget MkIII - Fast Road

Restored & performanced enhanced MG Midget

This MG has had a beautiful life so far, each owner has lovingly maintained and/or restored the car to various levels

Most recently in 2023/24 reknowned MG Midget and Sprite specialist Mike Authers has spun his magic to this car resulting on a car that is really amazing to drive, pulls like train and is so responsive and well .. pure FUN

The engine has been bored 20thou to 1293cc, new SW5 fast road cam from Swiftune, The kit included a new oil pump and cam followers.

The car also has a new duplex timing chain vernier cam sprocket.

The carbs are also fitted with an MED stub stack system and filter to improve induction air flow. A Manifold exhaust system was fitted.

4.2 differential. Adjustable telescopic shockers to the rear.

The car has benefitted with major restorations as documented by photos and invoices, in fact a meticulous and comprehensive history file dating back to the late 70's to current day

Hood in good condition, current MOT
