

TVR Griffith 4.3

low mileage and owner vehicle with a exemplary recent history. Largely original but with sensible upgrades and attention to usual areas of concern.

The 4. 3-litre TVR Griffith (pre cat) is widely considered by enthusiasts to be the sweet spot of the entire Griffith production run, offering the ultimate balance of raw performance, iconic sound, and collector value. Introduced in 1992, this specific variant delivers significant advantages over both the entry-level 4. 0-litre and the later 5. 0-litre models. The cars were produced without catalytic converters giving a much more impressive exhaust note and the engines revved much more freely through the power range.

This car had had lots spent noted on the usual areas of concern including the chassis and electrics as well as moderate performance upgrades.

- Gaurds Red Paint in very good condition with no cracking or noticeable defects. Bonnet was resprayed previously for cosmetic reasons probably stone chips
- Wood on dashboard has very minor laquer lift in a couple of areas but no

cracking.

- Black hide leather, heated seats have slight patina but no rips or tears
- Spare wheel and cover along with tools
- Hood in good condition and comes with cover.
- Indoor soft cover
- Outriggers replaced 8 years ago
- Aluminium Radiator fitted
- High lift Cam
- Lightened fly wheel.
- ECU replaced with upgrade
- Suspension dampers replaced and up-rated.
- Full stainless steel exhaust
- HT Leads uprated.
- Front electrical harness replaced.
- Petrol tank hose replaced 2025.
- New battery fitted July 2026.
- Underside solid and has been treated.
- 2 Keys and fobs, working remote locking
