

VW Beetle 1968 1200cc

1968 VW Beetle previously renovated & recently recomissioned

Out of long term storage for approx 6 years and now recommissioned this is a lovely condition car that had a body off restoration in 2012 with very little mileage since . The restoration included a new interior in TMI vinyl grey and full respray in Olive Grey

- Adjustable front suspension
- Lowered rear suspension (standard shocks)
- 3 point rear seatbelts
- Welding including 1 heater channel, floor, arches, spare wheel well, door posts etc
- Engine top end was stripped, clean and new gaskets and distributor
- Alternator fitted vs Dynamo
- New chrome trim and brightwork

- Headlining is good, with one small tear

The car has a reasonable sized history file yet mostly parts invoices plus there is some photographic evidence of the restoration.

There is a JBL sound system, radio/ CD/ MP3 with sub base, amp, coaxal speakers which may not appeal to all but it has been tastefully done and can easily be removed

The engine has just been recomissioned and tuned by VW specialists Type 2 Detectives at no small cost but you get what you pay for
